

Brainy Bingo

1. Write each word from the list below in one of the 16 boxes. Put them down in any order you like, just make sure not to repeat any, or leave blank boxes.
2. The Bingo Brain will read out the questions. Place the question number in the box that holds the answer.
3. When you have four answers in a row (either across, down or diagonally), shout "Bingo!"
4. Take your Bingo sheet to the Bingo Brain for checking to make sure your answers are correct.
5. The first person to have four correct answers in a row wins!
