- A. True.
- B. False

## QUESTION 6

The time it takes the Earth to complete one orbit around the Sun is \_\_\_\_

- A. A month
- B. A year
- C. A day
- D. Not known

## QUESTION 7

What is the most abundant gas in Jupiter's atmosphere?

- A. Helium
- B. Ammonia
- C. Hydrogen
- D. Oxygen

## QUESTION 8

Which two space satellites did South Africa built?

- A. SKA & Sunsat
- B. Sunspace & SKA
- C. SumbandilaSat & Sunspace
- D. Sunsat & SumbandilaSat

## QUESTION 9

The first satellite that South Africa built was launched in \_\_\_\_ on an American rocket.

- A. 1994
- B. 1999
- C. 2004
- D. 2009

## QUESTION 10

The second satellite that South Africa built was launched in \_\_\_\_ on a Russian rocket.

- A. 1994
- B. 1999
- C. 2004
- D. 2009

## QUESTION 11

Both the satellites that South Africa built have ceased operating.

- A. True
- B. False

## QUESTION 12

South Africa now has its own Space Agency.

- A. True
- B. False

## QUESTION 13

Which part of the Sun can be seen when its brilliant disk is blocked by the Moon during a total eclipse?

- A. Interior
- B. Corona
- C. Solar sphere
- D. Photosphere

## QUESTION 14

The coolest part of the Sun that we see with our own eyes is called the \_\_\_

- A. Chromosphere
- B. Corona
- C. Solar sphere
- D. Photosphere

## QUESTION 15

The Sun is gaseous and has no solid part in its structure.

- A. True
- B. False

## QUESTION 16

For six months of the year from \_\_\_\_\_ the southern hemisphere is more tilted towards the Sun.

- A. June to December
- B. July to January
- C. August to February
- D. September to March

## QUESTION 17

The northern hemisphere is more tilted towards the Sun from \_\_\_\_.

- A. June to December
- B. March to September**
- C. September to March
- D. August to February

## QUESTION 18

Which of the following does not belong to the group?

- A. Deimos
- B. Europa
- C. Huygens**
- D. Pandora

## QUESTION 19

Which of the following does not belong to the group?

- A. Callisto**
- B. Titan
- C. Mimas
- D. Dione

## QUESTION 20

Which of the following is incorrect about planet Neptune?

- A. It has large storms raging on its surface
- B. It has more than 1 moon
- C. It has rings around it
- D. It has craters**

## QUESTION 21

A dwarf planet is a satellite of another celestial body.

- A. True
- B. False**

## QUESTION 22

All planets in the Solar System are satellites of a certain celestial body.

- A. True
- B. False**

**QUESTION 23**

After how many years does Hulley's comet return?

- A. 97
- B. 76**
- C. 67
- D. 87

**QUESTION 24**

Galaxies often exist in groups called clusters. Our galaxy belongs to a cluster called \_\_\_\_\_

- A. The Milky Way
- B. The Local Group**
- C. The Universe
- D. The Cluster

**QUESTION 25**

An instrument that breaks up white light into its different colours is called a \_\_\_\_\_

- A. Telescope
- B. Spectroscope**
- C. Colourscope
- D. Stethoscope

**QUESTION 26**

A lunar eclipse occurs during the day whilst a solar eclipse occurs only at night.

- A. True
- B. False**

**QUESTION 27**

With the analysis of the colours from white light, scientists are able to tell if an object is moving away or towards the Earth.

- A. True**
- B. False

**QUESTION 28**

Which of the following is not part of the group?

- A. Hartebeesthoek Radio Astronomy Observatory
- B. South African Astronomical Observatory
- C. Boyden Observatory
- D. Yerkes Observatory**

**QUESTION 29**

Which project is the precursor of the SKA project?

- A. MeerKAT
- B. SALT
- C. H.E.S.S
- D. SAAO

**QUESTION 30**

The Square Kilometre Array telescopes will be erected in Cape Town.

- A. True
- B. False

**THANK YOU  
FOR PARTICIPATING**
